To Whom It May Concern,

Re: Cargo Services Limited Testimonial

Cargo Services Limited have been servicing Detmold's unpacking requirements [approx 600 containers pa] since 2016, and have been extremely efficient, to the point where they have become very much a part of our team in the warehouse, busying themselves with unpacking and with any other jobs which are required from time to time. This has enabled us to streamline our permanent staff numbers to concentrate on what we do best.

Their Director Graham Ward has coordinated their operation very efficiently from the outset, and is always available at the end of the phone [and often here in person] to resolve any difficulties which arise. They have readily supplied a 6 day service, guaranteeing the presence of a qualified Forklift Operator and an MPI Approved Person [AP] at all times, and we heartily recommend them to any company seeking to economically improve their packing or unpacking efficiency

Regards,

Elliot Power
