To Whom It May Concern,

Cargo Services Limited:

Cargo Services limited have been unpacking containers at Q.E.P for the last two years. We began using them due to unreliable staff issues and they proved to be reliable, consistent and happy to do a bit extra for us if needed. Their team have been excellent at sending us a crew, quite often at short notice, and have also been instrumental in coming up with a successful way to devan our long length products which have the potential to damage easily.

I have found all of Cargo Services Limited's staff to be well mannered and friendly, efficient and always keen to help. Graham and Andre make things easy to plan and although they run the business, it's impressive that they are frequently on site to assist and / or oversee the work contracted to their team.

They provide many qualified AP's and guarantee qualified and experience fork hoist drivers, as well as completing MPI paperwork accurately. Graham is easily approachable in person or by phone and is a great communicator which make things a lot easier for our operation.

I would recommend Cargo Services Limited as efficient devanners, but also as great minds who can problem solve and assist with basically anything needed in the area of logistics.

Regards,

Tony Smith

Warehouse Manager

QEP NZ Limited
